

Weight: 117lbs
 Dimensions: 42" Height
 Capacity: Specify (2) Sizes (see table below)

DBM-60 Unit Includes:
 > Model 20 Hydraulic Pump
 > SC-60 Saddle Clamps
 > Squeeze Release Control Valve (optional)

DBM-60

Mid-Duty Squeeze Tool

6" IPS Hydraulic ML Series

The Model DBM-60 Medium Duty Squeeze Tool is similar to the DBG-60 manual tool with the exception that it is hydraulically operated.

A reduced-stroke version of Mustang's proven hydraulic cylinder provides 41,000lbs of force directly over the pipe. The cylinder incorporates a built in locking valve to assure that pressure is maintained on the pipe in the event of a hydraulic failure.

Saddle clamps are provided to mechanically lock the upper and lower jaws and to assist in accomplishing a good squeeze off.

| Pipe Size | Nominal Wall Thickness | SDR | Gap Stop | %Max Squeeze |
|-----------|------------------------|---------|----------|--------------|
| IPS 3" | .259 | 13.5 | .450 | 26 |
| | .307-.318 | 11.5-11 | .500 | 29 |
| | .389 | 9 | .675 | 26 |
| IPS 4" | .333 | 13.5 | .560 | 25 |
| | .395-.409 | 11.5-11 | .675 | 26 |
| | .500-.548 | 9 | .800 | 24 |
| IPS 6" | .427 | 15.5 | .725 | 22 |
| | .491 | 13.5 | .813 | 26 |
| | .568-.602 | 11.5-11 | 1.00 | 26 |
